

## **Kennecott OKs new U. clinic at Daybreak**

*Published: November 18, 2008*

**SOUTH JORDAN — Kennecott Land and University Health Care have agreed to place a 150,000-square-foot health-care center in the Daybreak community to serve the southwest valley's growing population. It will be located at 11400 S. Daybreak View Parkway.**

**Rio Tinto's Kennecott Land is the developer of Daybreak and is working with the U. on a master plan for a multi-phase medical campus on up to 50 acres. Besides the multi-specialty health center, which will house primary and specialty care, radiology, pharmacy and vision services, plans later include a surgery and imaging center, AIRMED base and full-service hospital.**

**Ground will be broken on the new center next spring, and it will open in mid-2010.**
