### **Kennecott Land Wins National Award for Work Site Safety**

**January 20, 2010**

South Jordan, Utah – In recognition for its outstanding work-site safety program, Kennecott Land has been awarded the Associate Member Safety Program of the Year by the National Association of Home Builders (NAHB).

Kennecott Land was recognized during the fourth annual NAHB Safety Award For Excellence Reception at the Las Vegas Hilton on January 20, 2010. In addition to Kennecott Land, 13 other companies from across the country were also honored at the event.

The SAFE Award honors the achievements of builders and trade contractors who have developed and implemented high-quality construction safety programs, as well as government officials and NAHB-affiliated associations who have made successful efforts to advance safety in the home building industry.

“Ensuring a safe worksite is of paramount importance to home builders across the nation, and Kennecott Land’s commitment to protecting and educating their workers sets a shining example for the housing industry,” said Colin Campbell, chair of the NAHB Construction Safety & Health Committee and a builder from Charleston, S.C.

For more information about the SAFE awards, please visit [www.Nahb.org/SAFE](http://www.Nahb.org/SAFE).

#### **About Kennecott Land**

KLC was established by Rio Tinto in April 2001 to develop surplus mining land. Daybreak is the first testament to that vision. Daybreak is situated on 4,126 acres in South Jordan City where 20,000 homes and up to 13 million square feet of commercial space are planned. At KLC, sustainable development is at the heart of every business decision by balancing the complex interaction of environmental, economic and social factors. Kennecott Land does this in a way that protects and strengthens what matters most to our

community: strong and safe neighborhoods, quality education, a healthy and renewable environment, and a vibrant local economy.

**About Rio Tinto**

Rio Tinto is a leading international mining group headquartered in the United Kingdom, combining Rio Tinto plc, a London and NYSE listed company, and Rio Tinto Limited, which is listed on the Australian Securities Exchange.

Rio Tinto's business is finding, mining, and processing mineral resources. Major products are aluminum, copper, diamonds, energy (coal and uranium), gold, industrial minerals (borax, titanium dioxide, salt, talc) and iron ore. Activities span the world but are strongly represented in Australia and North America with significant businesses in South America, Asia, Europe and Southern Africa.
